Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/571,787	Applicant(s) SCHMITT-WALTER, STEFAN	
	Examiner BRIAN JENNISON	Art Unit 3742	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Response to Arguments

1. Applicant's arguments, see Page 12 of the reply, filed 5/22/2009, with respect to title objection, claim 16 objection, 112 2nd paragraph rejection of claims 3, 17, 18, 20, 23, 27, 40 have been fully considered and are persuasive. The objections and 112 2nd paragraph rejection of the title, claim 16 and claims 3, 17, 18, 20, 23, 27, 40 have been withdrawn.

2. Applicant's arguments filed 5/22/2009 have been fully considered but they are not persuasive. See remarks below.

3. Regarding applicant's arguments on pages 12 and 13 of the reply in regards to the actuator 128 not being a housing. The term housing is very broad and the actuator 128 houses components. When the actuator is engaged, the movement including the screw, nut and rod to move and will move along in the drive housing in some manner since it must move out of the drive housing to extend the electrode arm. The middle of the actuator is not supported by any structure. It must be supported from one end while the remaining part is supported by itself.

In regards to applicant's statement on page 13 paragraph 3, no argument to the housing halves is made.

In regards to applicant's arguments on pages 13-14 of the reply, it is not clear which elements or claim rejection applicant is referring to. Applicant admits the bellows is movable; therefore the expansion and contraction make it a movable housing. The

Art Unit: 3742

extent of the movement is not specified and the expansion and contraction fall within the scope of movable.

In regards to applicant's reply on page 14 with respect to claims 11-40, applicant merely states Taniguchi fails to teach what is taught by Beauregard, and fails to properly traverse the rejection.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-10 stand rejected under 35 U.S.C. 102(b) as being anticipated by Beauregard et al.

See previous office action.

Claim Rejections - 35 USC § 103

6. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

7. Claims 11-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over Beauregard et al in view of Taniguchi et al.

See previous office action.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
